

# World Unfold

## Privacy Policy

*Effective Date: May 10, 2025*

---

### 1. Introduction

Welcome to World Unfold. We are an educational platform designed to inspire curiosity in children by guiding them through the wonders of our planet — its lands, oceans, and skies. This Privacy Policy explains what information we collect, how we use it, and how we protect it.

World Unfold is developed and maintained by a team of four members: Alan A S, Algia Joy, Angel Maria Joy, and Aneena Josan.

### 2. Information We Collect

World Unfold is an educational content platform. We do not collect any personal information from users. The data used within our platform is limited strictly to educational reference content, including:

- Countries data — geographic, cultural, and factual information about nations of the world, used in our Land module.
- Ocean data — information about Earth's oceans, seas, marine environments, and related facts, used in our Ocean module.
- Stars data — astronomical information about stars, constellations, and the night sky, used in our Sky module.

This data is static educational content used solely to power the learning experience. It is not linked to any individual user.

### 3. No Personal Data Collection

World Unfold does not collect, store, or process any of the following:

- Names, email addresses, or contact information
- Location data or GPS information
- Device identifiers or IP addresses
- Usage analytics or behavioral tracking
- Cookies or third-party tracking technologies

Because we do not collect personal data, there is no user account system, login requirement, or data retention of any kind.

### 4. Children's Privacy

World Unfold is designed specifically for children. We take children's privacy seriously and have designed our platform in full compliance with this principle. We do not knowingly collect any personal information from children or adults. Our platform is purely content-driven and requires no registration or personal information to use.

## 5. Third-Party Services

World Unfold does not integrate with third-party advertising networks, analytics services, or social media platforms. All content is self-contained within the platform. We do not share any data with third parties because we do not collect any data in the first place.

## 6. Data Security

Since World Unfold does not collect or store personal information, there is no personal data at risk. The educational content datasets (countries, oceans, stars) are read-only reference files that are publicly sourced and carry no personal information.

## 7. Changes to This Policy

We may update this Privacy Policy from time to time as our platform evolves. Any changes will be reflected on this page with an updated effective date. We encourage users and parents to review this policy periodically.

## 8. Contact Us

If you have any questions or concerns about this Privacy Policy, please reach out to the World Unfold team:

- Alan A S
- Algia Joy
- Angel Maria Joy
- Aneena Josan

You may contact us through the World Unfold platform or via your institution's official communication channels.
